

► **POCKET LOCKSET HA2003**

The HA2003 is a premium mortised mechanism with a spring-activated pull for use on pocket or sliding doors. This mechanism features an elongated armor front.

This lockset is often used instead of HA2000 to coordinate mortising on passage and privacy pocket doors.

| TOTAL DEPTH | BODY THICKNESS |
|-------------|----------------|
| 3-3/8" | 3/4" |
