

► **POCKET EDGE PULL HT2212**

The HT2212 is a gravity pocket edge pull with a flat pull. It can be mortised flush into the side of a sliding door to help pull the door from the pocket.

The diagram shows the pocket edge pull with a dust box (HT2212-DB) which can be specified separately as needed.

LENGTH	WIDTH	DEPTH
6-1/4"	1-1/8"	1-3/8"
