

► CUFF HT3667-5.750x2.188x2.125

H. Theophile's unique line of fin cuffs for pocket doors is an engineered solution integrating recessed pulls into a flush-mounted, wrap-around design.

Shown here with radiused corners to coordinate with tubular steel door construction, the HT3667 installs with concealed screw mounting. It is available in a range of sizes and functions. Cuffs are made to order by project to suit door thicknesses and finishes, and can be combined with a concealed bolt or cremone mechanism for privacy function.

HEIGHT	WIDTH	THICKNESS
5-3/4"	2-3/16"	2-1/8"
