

► **KNOB HT4049 - BACKPLATE HT3021v**

The HT4049 rectangular knob, based on an American design from the 1920s, delicately balances its historical stepped detail with a modern sensibility for clean lines and proportion. Shown with the period-appropriate HT3021v backplate. Can be used without a backplate for cabinet applications.

See HT3021v for additional backplate information.

See HT9049, HT9209, and HT9211 for coordinating cabinet pull and T-pull designs.
