

► **KNOB HT4089 - CUFF HT3615**

From H. Theophile's unique line of door cuffs, the HT3615 is an engineered wrap-around design integrating backplates, handles, and lockset, and is available in a range of sizes and functions. Cuffs are made to order by project to suit door thicknesses, bevels, and finishes.

Shown here with the HT4089 wooden knob and the HT1027 thumbturn for privacy function, the vertical configuration of the HT3615 cuff can be combined with a variety of handles.

HEIGHT	WIDTH	THICKNESS
15"	6"	1-3/4"
