

► **KNOB HT4128 - BACKPLATE HT3127v**

This handsome pairing of knob and backplate is united by concentric rings, both incised and raised, and epitomizes modern American design. The generous size and angled face of the HT4128 knob suggest its original production was circa 1940.

See HT3127v for additional backplate information.

KNOB	BACKPLATE	PROJECTION
2-1/2" diameter	2" square	2-9/16"
