► **KNOB HT4167 - BACKPLATE HT3190v**

The HT4167 knob, an example of Moderne design from the 1940s, abstracts and exaggerates a classical knob silhouette. The dome's center, a near-spherical ball, dramatically perches atop the knob face.

The period-appropriate HT3190v backplate can be provided with or without visible mounting screws. See HT3190v for additional information.
