

► **KNOB HT4301 - BACKPLATE HT3008**

This handsome melon design belongs to a lineage of similar knobs which go back to the Georgian era. The geometry of the HT3008 Neoclassical backplate provides a perfect foil for the round knob and is available with or without visible mounting screws.

The 2-1/4" round knob is shown here with a 2-1/4" square backplate. See HT3008 for additional backplate information.

See HT9915 for coordinating cabinet sizes of this knob.
