SINCE 1882

► **KNOB HT4852 - BACKPLATE HT3099**

The HT4852 knob follows 18th century Georgian models with a generous domed face ringed by a classical molding. The oversized knob transitions elegantly to its tapering shaft, which recalls the form of a classical baluster.

The coordinating HT3099 rosette echoes the knob's perimeter detail. See HT3099 for additional backplate information.
