

► **LEVER HT6000 - BACKPLATE HT3001**

The contemporary design of the HT6000 lever features a wafer-thin handle integrated with a conical shaft. The lever is ergonomically designed and seems aerodynamic in inspiration.

The 5" lever is shown here with a 2" round backplate. See HT3001 for additional backplate information.

LEVER LENGTH	BACKPLATE	PROJECTION
5" overall	2" diameter	2-5/8"
