

► **FLUSH BOLT HT7020**

The HT7020 flush bolt is typically used on the passive leaf of a double door. It is mounted on the leading edge of the door, shooting a bolt into the header or floor, or both. A typical installation has two flush bolts per door leaf. It is available in standard and custom finishes.

A wide range of lengths is available, a selection of which is shown below. Mortised and surface-mounted strike options are available.

HEIGHT	WIDTH	DEPTH
8"	1"	1-1/2"
12"	1"	1-1/2"
18"	1"	1-1/2"
36"	1"	1-1/2"
