

► CANE BOLT HT7024 - CABINET PULL HT9293

The HT7024 is a decorative surface-mounted cane bolt, shown here with the HT9293 pull. It is typically mounted on the interior face of the door, locking into the header and/or the floor. Surface-mounted universal and mortise strike options are available. This cane bolt is available in standard and custom finishes.

The HT9293 is available separately as a cabinet pull.
