

► **FLUSH BOLT HT7026**

The HT7026 flush bolt is typically used on the passive leaf of a double door. It is mounted on the leading edge of the door, shooting a bolt into either the header or floor, or both. A typical installation has two flush bolts per door leaf. It is available in standard and custom finishes.

Multiple lengths are available; specify when ordering. Several strike options are available and specified to suit each specific application.

Throw: 3/4" for the 4" bolt; 1" for the 6" bolt.

HEIGHT	WIDTH	DEPTH
4"	3/4"	1-1/8"
6"	3/4"	1-3/8"
