

► **CABINET PULL HT9021 - BACKPLATE HT3198v**

This handsome English design from the 1930s has refined proportions through the elaboration of its unusual oblong face with hand-engraved cross-hatching. The 2-9/16" length pull is shown here with a 2-1/2" long backplate. See HT3198v for additional backplate information.

See HT4021 for coordinating door knob sizes of this pull.
