

► **CABINET PULL HT9040 - BACKPLATE HT3008v**

The HT9040 cabinet pull is a Neoclassical European design from the 1930s with an elegant dome of concentric circles. The shaft's uniquely curved profile resolves in a collared base. The 1-1/2" diameter pull is shown here with a 1-1/4" round backplate. See HT3008v for additional backplate information.

PULL	BACKPLATE	PROJECTION
1-1/2" diameter	1-1/4" diameter	1-9/16"
