

► **CABINET PULL HT9040 - BACKPLATE HT3110**

The HT9040 cabinet pull is a Neoclassical European design from the 1930s with an elegant dome of concentric circles. The shaft's uniquely curved profile resolves in a collared base. The 1-1/2" diameter pull is shown here with a 1-5/16" round backplate. See HT3110 for additional backplate information.

PULL	BACKPLATE	PROJECTION
1-1/2" diameter	1-5/16" diameter	1-9/16"
