

► RECESSED PULL HT9283 - RING PULL HT9976

The graphic Arts and Crafts effect of the HT9976 ring pull is perfectly complimented by its eccentric pivot point.

A minimal box depth of 7/16" (mortised depth behind face frame) is shown; other depths are also available.

Shown here with the HT9283 arch recessed pull with detailed edge molding. See HT9283 for additional pull information.

| RECESS | H x W | RING | H x W | PROJECTION |
|------------------|-------|-------------|-------|------------|
| 7-1/4" x 3-3/16" | | 2" x 2-3/8" | | 1/4" |
