

► **CABINET PULL HT9300m - BACKPLATE HT3008**

The HT9300m cabinet pull is a Northern European design found in a variety of permutations since the 18th century. The face is well suited to elaboration with custom monograms. The incised lines at the base suggests a Neoclassical detail. Shown here with HT3008 backplate. Size shown is 1-1/8" square pull with 1-3/8" square backplate at 1-5/16" projection.

See HT9234 for a coordinating rectangular cabinet pull design.

PULL	BACKPLATE	PROJECTION
1-1/8" square	1-3/8" square	1-1/16"
1-1/8" square	1-3/8" square	1-5/16"
