

► RECESSED PULL HT9416e

The HT9416e recessed pull's face frame has an extended top and bottom, and is fitted with an emergency release turnpiece. Please specify either polished or matte finish for the interior faces of the pull.

This pull can be used on sliding doors only and can be adapted for passage, privacy and keyed functions; specify when ordering.

Standard box depth (mortised depth behind face frame) is shown.

LENGTH	WIDTH	PROJECTION	BOX DEPTH
7"	2-1/4"	1/8"	5/16"
