

► **RECESSED PULL HT9432v**

The HT9432v rectangular recessed pull features a symmetrical rectilinear frame and contrasting, radiused inside corners. The use of visible screws provides a modern industrial flavor. Available for pocket doors and if specified with a lip, can be used on swing doors.

Available in standard size below and in various custom sizes. Depth of recessed pulls will vary based on door thickness.

LENGTH	WIDTH	PROJECTION	BOX DEPTH
5"	1-3/4"	1/8"	3/8"
