

► RECESSED PULL HT9919

The HT9919 recessed pull is a Modernist design constructed of clean, machined brass blocks assembled in an unconventional and subtle pinwheel pattern.

This pull can be used on sliding doors (as shown) and can be adapted for swing doors, privacy and keyed functions; specify when ordering.

Other depths are also available upon request.

LENGTH	WIDTH	BOX DEPTH
5-1/4"	1-3/4"	3/4"
